

## CheerDriving CheerBox MCU Update Instruction

- 1,Download our update file(APP CORE.ENC)
  - 2,Copy this update file to a **FAT32 formatted** USB disk
  - 3,Plug the USB disk into our box update port,click our box reset button,the blue light will flash fast while updating.
  - 4,About 1 minute later, the light stop flash,it means update finished,unplug the usb disk and power cable from our box
  - 5,Reconnect power cable,MCU update finished!
- PS: we also have video instruction, please follow!
